## Cold laser therapy for pain relief

Pioneering solutions for effective, non-invasive pain management

# Experience the Future of Pain Management with IASO by WellsCare

Welcome to WellsCare, where innovative healthcare meets exceptional quality. As a pioneer in pain management solutions based on photobiomodulation, WellsCare is dedicated to enhancing wellbeing through cutting-edge technology and user-centric design. Our mission is to provide effective, non-invasive treatments that empower individuals to live pain-free, active lives.

IASO, our leading brand in advanced pain relief, reflects our commitment to innovation and quality, utilizing low-level laser therapy (LLLT) for safe, effective pain relief without medication. Whether facing chronic pain, sports injuries, or daily strains, IASO offers a reliable, portable solution for your lifestyle.

Discover how IASO can transform your pain management approach and enhance your quality of life. Our brochure highlights the features, benefits, and applications of our advanced products. At WellsCare, we are dedicated to helping you achieve optimal health with the most innovative therapeutic technologies available.

# Exploring IASO and IASO Ultra

## - Advanced Cold Laser Therapy for Pain Relief

### IASO

Our flagship device, IASO, offers effective, non-invasive pain relief through advanced photobiomodulation technology. Utilizing low-level laser therapy (LLLT), IASO targets pain and inflammation at the cellular level, promoting natural healing without medication. Its compact and portable design makes it easy to integrate into your daily routine, whether you're at home or on the go. IASO emits lasers at two specific wavelengths, 680 nm and 830 nm, which are scientifically proven to deliver optimal pain relief effects.

### IASO Ultra

IASO Ultra takes your pain management to the next level by providing medical-grade photobiomodulation therapy in the comfort of your home. Its larger size makes it ideal for treating larger areas such as the lower back, shoulders, and thighs. Equipped with a trifecta of pain relief wavelengths, 650 nm, 830 nm, and 905 nm, combined with blue LED light at 453 nm, IASO Ultra delivers a highly advanced therapy experience. This combination ensures medical-level precision and effectiveness, addressing pain with enhanced coverage and targeted relief.

# Designed to Fit the Modern You

In today's busy world, your wellness needs to adapt seamlessly to your lifestyle. IASO and IASO Ultra are expertly crafted with a sleek, modern design that integrates effortlessly into your daily routine. Offering advanced pain relief anytime and anywhere, these devices combine cutting-edge technology with aesthetic appeal, fitting perfectly into both home and travel settings.

The compact IASO is ideal for personal use, while the larger IASO Ultra is designed for comprehensive coverage of extensive areas like the back or thighs. Both devices ensure effective, user-friendly pain management with their modern, ergonomic design.

Embrace advanced wellness with devices that not only support your needs but also complement your modern lifestyle with precision and style.

IASO seamlessly fits into your modern lifestyle, offering advanced pain relief that adapts to your daily routine.

# Harnessing the Power of Cold Laser Therapy

Cold laser therapy, also known as low-level laser therapy (LLLT), uses low-intensity lasers to stimulate healing and reduce pain. It works by delivering light to affected areas, boosting cellular energy, reducing inflammation, and promoting tissue repair without the need for medication.

The light from cold lasers penetrates the skin to stimulate cells, increase energy production, and enhance tissue repair. It helps alleviate pain and speed up recovery through non-invasive means.

IASO and IASO Ultra integrate cold laser therapy to provide effective, drug-free pain relief. Their advanced designs ensure precise light delivery, targeting pain and inflammation with optimal efficiency. Compact and easy to use, IASO and IASO Ultra help manage chronic pain and supports recovery in a convenient, portable format.

# Trusted Solutions for Comprehensive Pain Relief

IASO and IASO Ultra are extensively utilized by individuals, as well as healthcare professionals like chiropractors, physiotherapists, and athletes and sports trainers, to address a broad spectrum of pain conditions including:

- Chronic back pain
- Joint pain
- Musculoskeletal pain
- Arthritis
- Tennis elbow
- Golfer's elbow
- Plantar fasciitis
- Neck, shoulder, wrist, knee, ankle pain
